College of Charleston School of Business
Department of Supply Chain & Information Management

SCIM 373-02: Supply Chain Planning and Analysis

Course Details:

Semester:	**Fall 2026**
Course Code:	**SCIM 373-02**
Course Name:	Supply Chain Planning and Analysis
Course Prerequisites:	DSCI 304
Classroom:	**BEATTY CENTER 216**
Class Timing:	**Wednesday: 17:30 – 20:15pm**
Final Exam	**Friday, December 4th, 6:00 pm - 8:00 pm**

Professor Details:

Professor:	Dr. Purushottam Lal (PL) Meena
Email:	**meenap@cofc.edu** (*Please use SCIM 373-02 in the email subject line*)
Office Hours	In-person, **MW from 13:00–14:00pm** and by appointment. To schedule a virtual meeting on Zoom, email me.
Office location	Beatty Center **(BCTR) 435**
Phone (Office)	843-953-8150

Course Description:

The supply chain is a network of interlinked firms and relationships that deliver products to customers and recycle used products from consumers to manufacturers to capture additional value. Functions of the supply chain include sourcing, production scheduling, inventory planning, logistics/distribution management, and demand and supply forecasting. This course aims to provide students with thknowledge and skills to manage supply chain functions effectively. Using concepts and analytics tools, this course aims to impart practical knowledge and skills about sourcing, logistics, coordination, inventory, and sustainability. MS Excel will be primarily used to solve supply chain problems.

Course Objectives:

Upon the successful completion of this course, the student will be able to:

1. Understand supply chain management and its importance.
2. Identify risks involved in the supply chain and ways to minimize those risks.
3. Understand the importance of sourcing in today's context and how managing suppliers can be one of the most effective tools in tackling risks and reducing costs.
4. Understand the importance of coordination and integration, and learn how the supply chain can be more coordinated and integrated.
5. Able to plan a supply chain network and realize its role in achieving strategic goals.
6. Learn disruptive technologies and the relevance of making the supply chain sustainable and resilient.

School of Business Learning Goals:

- Communication Skills: Students will demonstrate the ability, via both written and spoken word, to effectively present, critique, and defend ideas in a cogent, persuasive manner.
- Quantitative Fluency: Students will demonstrate competency in logical reasoning and data analysis skills.
- Global and Civic Responsibility: Students will be able to identify and define social, ethical, environmental, and economic challenges at local, national, and international levels. Students will also be able to integrate knowledge and skills in addressing these issues.
- Intellectual Innovation and Creativity: Students will be able to demonstrate their resourcefulness and originality in addressing extemporaneous problems.
- Synthesis: Students will demonstrate the ability to integrate knowledge from multiple disciplines, incorporating learning from both classroom and non-classroom settings to complete complex and comprehensive tasks.

Teaching Method:

This course will be conducted entirely in person. We will use a variety of interactive teaching methods, including application-based discussions, case studies from real-world industries, in-class exercises, video clips, quizzes, and assignments. These methods are designed to help you apply the concepts and techniques covered in the course. The primary software tools used in this course will include Microsoft Excel, Excel-OM, LogHub, and other state-of-the-art tools relevant to supply chain management. Active participation during class is essential for mastering the course material. If necessary, additional teaching methods or resources may be introduced to further enhance your learning experience.

Recommended Textbook and Resource(s):

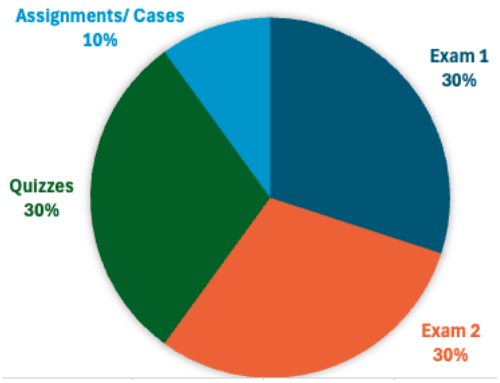

- Designing and Managing the Supply Chain: Concepts, Strategies, and Case Studies by Simchi-Levi, D. et al. (2022). 4th Edition. McGraw-Hill Publication.
- Heizer, J., Render, B. & Munson, C. (2023). Operations Management: Sustainability and Supply Chain Management, **14th Ed.** **Link to Textbook.**
- Spreadsheet Modeling and Decision Analysis: A Practical Introduction to Business Analytics by Cliff Ragsdale (2022). 9th Edition. **Link to Textbook.**
- **Course Materials:** PowerPoint slides, the syllabus, and software files are accessible via OAKS.
- **Software:** Excel-OM, an Excel add-in, will be utilized throughout the course. Installation files are available on OAKS. This software is compatible only with Microsoft Excel, so ensure Microsoft Office 365 is installed before the first class. It is not compatible with Google Sheets.
- **Computer Requirements:** You must have a laptop or desktop with Microsoft Office 365 installed. If you do not have MS Office, download it for free from **here.**

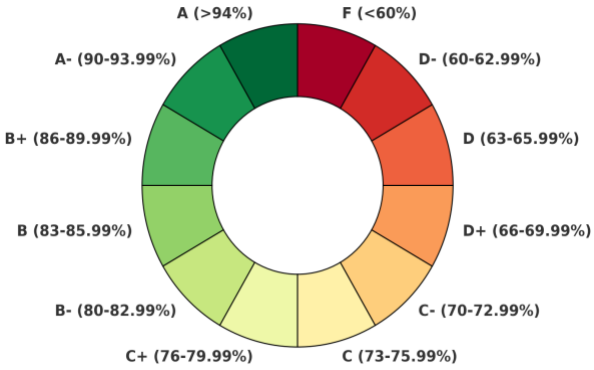

Further Readings:

- Chopra, S. (2021). Supply Chain Management: Strategy, Planning, and Operation. Pearson. ISBN-13: 9780137502844. **Link to Textbook.**
- Jacobs, F.R., Chase, R. (2024), *Operations and Supply Chain Management*, 17th Edition. McGraw-Hill Education. ISBN13: 9781265071271. **Link to Textbook.**

Assessment Methodology and Grading Guidelines:

The course assessments include two exams, each worth 60 points. Additionally, there will be four quizzes totaling 60 points, and assignments/case studies contributing 20 points. Altogether, the course offers 200 points. Deadlines for each assessment will be announced in class. Final grades will be determined based on these assessments using the following grading scale:

The professor can increase the number of assignments, case studies, quizzes, as well as their weightage. The final grade will be calculated using the following grading scale:

Course Tentative Weekly Schedule:

Below is the topic-wise weekly schedule. Please note that this is a tentative schedule; the professor reserves the right to change it if needed.

Week	Day	Topic	Chapter(s)
1	W, 8/19	Introduction to SCM	Additional readings
		Supply chain performance	Additional readings
2	W, 8/26	Single and multi-period Inventory management	2
		Single and multi-period Inventory management	
3	W, 9/2	Multi-period Inventory management **and Review**	Ch 2 & add reading
		Quiz 1	**Ch 2 & Additional readings**
Discussion Forum 1 Submission Due, 9/6/26 @ 11:59pm			
4	W, 9/9	Supply chain contracts	4
		Supply chain contracts	
5	W, 9/16	Supply chain contracts	4
		Liner and Integer Programming Applications	Additional readings
6	W, 9/23	LP Applications and **Review**	
		Quiz 2	**Ch 4 & Additional readings**
7	W, 9/30	Review Quiz 2 solution	
		Mid-Term Exam	**All Above**
8	W, 10/7	LP for Transportation Planning	Additional readings
		Supply Chain Network planning & design	3
9	W, 10/14	Supply chain Network planning & design	3

		Supply chain Network planning & design	3
10	W, 10/21	Supply chain Network planning & design	3
		Review	**Ch 3 & Additional readings**
11	W, 10/28	**Quiz 3**	
		Facility/warehouse/plant location decisions	Additional readings
12	W, 11/4	Facility/warehouse/plant location decisions	Additional readings
		Facility/warehouse/plant location decisions	Additional readings
13	W, 11/11	Recent trends and risk management	13
		Recent trends and risk management	13
Discussion Forum 2 Submission Due, 11/17/26 @ 11:59pm			
14	W, 11/18	**Review**	
		Quiz 4	**13 & Additional readings**
15	W, 11/25	**Thanksgiving Holiday. No Classes.**	
16	W, 12/2	Reading Day. No class.	
Discussion Forum 3 Submission Due, 12/03/26 @ 11:59pm			
17	F, 12/4	**Final Exam (Friday, December 4th, 6:00 - 8:00pm)**	**All Chapters**

POLICIES AND PROCEDURES

Community & Communication Statement

Communication with me can occur through various means, including in-person, email, and the OAKS discussion board. Please keep the following procedures in mind:

Steps Before Emailing:

1. Review the class schedule and syllabus.
2. Check OAKS for announcements and instructions, including the discussion board.
3. Confer with classmates.

If you still don't have an answer to your question, email me. Please follow the steps below to help maintain efficiency!

Email Etiquette:

Email is a critical communication tool in the professional world. Practicing proper email etiquette now will benefit you greatly in your career. When emailing me, please:

- Include SCIM 373-02 in the subject line.
- Use a respectful greeting (e.g., "Hi PL" or "Dear Dr. Meena").
- Fully sign your name.
- Use complete sentences and proofread your email.

I typically respond to emails within 24 hours on weekdays. My response time may be slower on weekends (36-48 hours). I stop responding to emails after 9:00 PM. If you do not receive a reply within 48 hours, please re-send your message (unless you haven't followed the above steps).

Office Hours:

Office hours will be held on MW from 1:00 to 2:00pm in Beatty 435. Please book your slot in advance. If you cannot meet during these times, please email me at meenap@cofc.edu to schedule a different time. I will respond to all emails within 48 hours on weekdays.

Classroom Behavior Standards:
Maintaining a respectful and supportive environment is crucial. According to the Student Handbook, a college classroom requires a higher level of courtesy. To uphold this, please follow these netiquette guidelines:

- **Kindness and Ethics:** Avoid using language that could be offensive, discriminatory, or hurtful to others. Always ask yourself, "Would I say this to the person's face?" If the answer is no, rewrite.
- **Perception Awareness:** Avoid using ALL CAPITAL LETTERS, which may be perceived as overly aggressive. Be cautious with humor, as it can easily be misinterpreted.
- **Forgiveness and Understanding:** We all make mistakes in communication. Ask clarifying questions rather than attacking. If you experience any inappropriate behavior, please let me know.
- **Respectful Disagreement:** Everyone has the right to speak and be heard. Debate is valuable, but always be respectful.
- **Knowledge Sharing:** Everyone knows something you don't. Share your expertise when relevant.
- **Proper Citation:** Support your claims with evidence. This strengthens your arguments and provides resources for your colleagues. Always cite the intellectual property of others.
- **Mutual Assistance:** If you see a question or problem, offer assistance.

Academic Rigor and Attendance Expectations:

- To succeed in this course, it is essential to actively participate in all in-person classes and discussions. The workload is equivalent to that of a traditional course, so staying on top of assignments and consistently engaging with course materials is crucial.
- Success depends on your regular attendance and thoughtful participation. You are permitted up to **three absences or late arrivals** during the semester. Exceeding these limits may negatively impact your final grade or result in a "WA" grade. If you miss a class or test, it is at the instructor's discretion to grant or deny an opportunity to make up the missed work, based on the validity of your explanation.
- You should expect to spend around 10 hours per week on coursework, including attending classes, completing assignments, and studying for exams.

Exam/Quizzes Policy:

All exams and quizzes will be administered in class, with each student given only one opportunity to complete each within the specified timeframe and dates. Ensure you have a stable internet connection and access to ExcelOM before starting the quiz/exam. Key guidelines include:

- **Exam Dates:** Exams will be conducted on the given dates and times.
- **Closed Book Policy:** Exams/Quizzes are closed-book and closed-notes, except for the use of software and provided Excel templates.
- **Time Management:** If a student doesn't start the exam/quiz on time or continues working beyond the given time, the exam will not be accepted.
- **Make-Up Exams:** No make-up exams/quizzes will be offered except in cases of documented emergencies.

Studying Tips to be Successful:
As your instructor, I am committed to upholding the high standards expected at a premier institution. This course will cover a significant amount of material at a brisk pace. Your primary goal is to meet the learning objectives, and I am here to support your success.

Strategies for Success:

- **Preparation:** Always read the relevant chapter/section from the textbook before attending class. Understanding terms and concepts beforehand will enhance your engagement during lectures.
- **Note-Taking:** Effective note-taking during lectures and practice exercises is essential for retaining complex information.
- **Stay Current:** Keep up with all readings and exercises. To maintain pace with the course, I recommend dedicating approximately two hours of study for each hour spent in class. Procrastination can severely affect your academic performance.
- **Focus on Course Materials:** Carefully review all provided materials, including the custom-made PowerPoint slides. To optimize learning, view these slides in presentation mode, keep ExcelOM open, and work through the problems as you go.
- **Seek Help When Needed**: If you face difficulties, don't hesitate to arrange a meeting during office hours. I am available to provide support and ensure you overcome any hurdles.
- **Practice is the Key:** Consistent practice of problems akin to those covered in lectures is crucial given the challenging nature of this course.

OAKS: OAKS will be used for this course throughout the semester to provide the syllabus, class materials, and grades for each assignment, which will be regularly posted.

Technology Troubleshooting Information:
If you encounter technical issues with OAKS or other course-related technologies, please contact the IT Helpdesk at helpdesk@cofc.edu or call 843-953-3375. For issues with specific software such as Excel-OM, refer to the tutorials on OAKS or contact the software vendor's support team.

Academic Integrity:
As members of the College of Charleston community, we affirm, embrace, and hold ourselves accountable to the core values of integrity, academic excellence, liberal arts education, respect for the individual student, diversity, equity and inclusion, student-centeredness, innovation, and public mission. Congruent with these core values, the College of Charleston expects every student and community member to uphold the standards of the honor code, as outlined in the Student Handbook. In pursuit of academic learning, you are expected to reference the work of other scholars and complete your own academic work while utilizing appropriate resources for assistance. Any acts of suspected academic dishonesty will be reported to the Office of the Dean of Students and addressed through the conduct process. Your adherence to these practices and expectations plays a vital role in fostering a campus culture that balances trust and the pursuit of knowledge while producing a strong foundation of academic excellence at the College of Charleston. Any questions regarding these expectations can be clarified by your instructor.

Accommodations for Students with Disabilities:
The College of Charleston is committed to providing access and inclusion for all persons with disabilities. Students with disabilities who anticipate or experience disability-related barriers in the academic setting should notify their professor, and also initiate contact with the Center for Disability Services (CDS) to move forward with the college's established accommodation process (email: snap@cofc.edu; phone: 843-953-1431; Location: Lightsey Center 104). Students already connected with CDS for academic-related accommodations should share their Professor Notification Letter (PNL) with each professor as early in the semester as possible so that accommodations can be made in a timely manner. The PNL informs faculty of potential course access and accommodations that might be necessary and reasonable. It is the student's responsibility to follow this process each semester.

Inclement Weather, Pandemic or Substantial Interruption of Instruction:
If in-person classes are suspended, faculty will announce to their students a detailed plan for a change in modality to ensure the continuity of learning. All students must have access to a computer equipped with a web camera, microphone, and Internet access. Resources are available to provide students with these essential tools.

Generative Artificial Intelligence (GAI):
Generative Artificial Intelligence (GAI) tools are not permitted for any work in this class. If you use GAI tools, your actions would be considered academically dishonest and a violation of the College of Charleston's Honor Code and Code of Conduct.

Students are bound by honor and by their enrollment at the College to abide by the specific policies of the Honor Code and the Code of Conduct, and to report any violations of the Honor System. All work submitted in this course must be your own, completed in accordance with the College's Honor Code. You may not engage in unauthorized collaboration or use ChatGPT or other GAI tools.

Since writing, analytical, and critical thinking skills are part of the learning outcomes of this course, all writing assignments should be prepared solely by the student and without any assistance. Questions in this regard should be shared directly with your professor. Developing strong competencies in this area will prepare you for a competitive workplace. Therefore, support of any generative artificial intelligence (GAI) tools is not permitted, and submissions using GAI will be treated as plagiarism per the College of Charleston's Honor Code.

Automated Writing Tools: 0
Unless otherwise specified, the use of generative artificial intelligence (GAI), including ChatGPT and similar tools, is strictly prohibited in this course, even when appropriately referenced. The use of automated writing tools will be considered plagiarism and a violation of the CofC Honor Code.

The Center for Student Learning:
The CSL offers academic support services for most College classes in a centralized location in the Addlestone Library. Services include drop-in and by-appointment tutoring, SI (Supplemental Instruction), and academic coaching, offered at no additional charge for CofC students. Peer educators—recommended by faculty and trained by CSL staff—comprise the bulk of the staff, and as one of the largest student employers on campus, the CSL can offer on-campus employment to 130+ qualified students each year. All students are encouraged to visit, call, or email the CSL at the start of each semester to discuss which academic support services align with their current course schedule; they can also request a Personalized Resource Plan.

F2F courses when students are quarantined/isolated due to Covid-19:
If one or more students are absent for an extended period of time due to COVID-19 (quarantine or isolation), instructors may, at their discretion, conduct the class exclusively online via OAKS for the duration of student quarantine/isolation, record class lessons to share with students, or choose an alternate accommodation that provides the impacted student(s) with the opportunity to continue in the course. The specific accommodation will vary depending on the number of students affected, the expected duration of their absence, and the needs of the class.

Attendance Verification:
Only students officially registered (graded or auditing) for this course may attend class. The professor will verify student enrollment in this course during the week following the drop/add deadline. Any student appearing on the class roll but determined not to have attended the class even once will be removed, except in cases where a student is absent due to COVID-19 quarantine or isolation.

Recording of Classes (via ZOOM):
Class sessions may be recorded via both audio and video. By attending and remaining in this class, the student consents to being recorded. Recorded class sessions are for instructional use only and may not be shared with anyone who is not enrolled in the class.

Diversity and Inclusion in the Classroom:
I am committed to creating an inclusive and accessible classroom environment for all students. I view the diversity that students bring to this class as a resource, strength, and benefit. It is my intent to present materials and activities that are respectful of diversity: gender, sexuality, disability, generational status, socioeconomic status, ethnicity, race, religious background, and immigration status. Any suggestions for promoting a positive and open environment will be appreciated and given serious consideration.

I will gladly honor your request to address you by the name and gender pronouns of your choice. Please advise me of this early in the semester via your college-issued email account or during office hours so that I may make the appropriate notation on my class list.

Inclusion:
The Multicultural Student Programs and Services provides a safe haven for students to develop connections with other students. It exists to help students be successful, provide advocacy, support services, and culturally based programs that educate about diversity and multiculturalism and empower them to be agents of social change in an increasingly diverse and global community.

The Gender & Sexuality Equity Center enhances the well-being of our diverse LGBTQ+ community at the College of Charleston. We provide programs, services and resources to build and maintain a visible and accessible community for our LGBTQ+ students. For more information about LGBTQ+ resources including the Campus Pride Center, Gender Inclusive Facilities, Name and Pronouns information, and more. Please visit at the Campus Pride Center at 9 ½ Glebe Street or contact Dr. Naomi Simmons at simmonsn1@cofc.edu.

Mental & Physical Wellbeing:
We take each student's mental and physical wellbeing seriously. If you find yourself experiencing physical illnesses, please reach out to student health services (843.953.5520). And if you find yourself experiencing any mental health challenges (for example, anxiety, depression, stressful life events, sleep deprivation, and/or loneliness/homesickness) please consider contacting either the Counseling Center (professional counselors at CofC Counseling Center or 843.953.5640 3rd Floor of Robert Scott Small Building) or the Students 4 Support (certified volunteers through texting "4support" to 839863, or meet with them in person 411 (4th Floor) Stern Center). Learn more about Students 4 Support on CofC's Hub. These services are there for you to help you cope with difficulties you may be experiencing and to maintain optimal physical and mental health.

Food & Housing Resources:
Many CofC students report experiencing food and housing insecurity. If you are facing challenges in securing food (such as not being able to afford groceries or get sufficient food to eat every day) and housing (such as lacking a safe and stable place to live), please contact the Dean of Students for support (SALT - Student Affairs Leadership Team). Also, you can go to Student Food and Housing Insecurity to learn about food and housing assistance that is available to you. In addition, there are several resources on and off campus to help. You can visit the Cougar Pantry in the Stern Center (2nd floor), a student-run food pantry that provides dry-goods and hygiene products at no charge to any student in need.

Safe Environment:
CofC is committed to providing an environment free of all forms of prohibited discrimination, including sexual harassment and violence (i.e. sexual assault, domestic and dating violence, and gender or sex-based bullying and stalking). If you have experienced discrimination or harassment, help and support are available. CofC employees, other than designated confidential resources, must report information they receive about prohibited discrimination, including sexual harassment and sexual violence. This means that if you tell me about a situation involving sexual harassment, sexual violence, discrimination, or harassment, I must share the information

with the Title IX Coordinator. You may speak to someone confidentially by contacting the Office of Victim Services at 843-953-2273, Counseling Center at 843-953-5640, or Student Health Services at 843-953-5520. You can also report any sexual misconduct or discrimination, or learn more about your options and resources, by contacting the Office of Equal Opportunity Programs at 843-953-5754.

Religious Accommodation for Students:
The College of Charleston community is enriched by students of many faiths that have various religious observances, practices, and beliefs. We value student rights and freedoms, including each student's right to adhere to their own religious beliefs. The College prohibits discrimination against any student because of such student's religious belief or any absence thereof.

The College acknowledges that religious practices differ from tradition to tradition and that the demands of religious observances in some traditions may cause conflicts with student schedules. In affirming this diversity, like many other colleges and universities, the College supports the concept of "reasonable accommodation for religious observance" in regard to class attendance, and the scheduling of examinations and other academic work requirements, unless the accommodation would create an undue hardship on the College. Faculty are required, as part of their responsibility to students and the College, to ascribe to this policy and to ensure its fair and full implementation.

The accommodation request imposes responsibilities and obligations on both the individual requesting the accommodation and the College. Faculty members are expected to reasonably accommodate individual religious practices. Examples of reasonable accommodations for student absences might include: rescheduling of an exam or giving a make-up exam for the student in question; altering the time of a student's presentation; allowing extra-credit assignments to substitute for missed class work or arranging for an increased flexibility in assignment dates. Regardless of any accommodation that may be granted, students are responsible for satisfying all academic objectives, requirements and prerequisites as defined by the College.
